

Oakes Café

The Oakes Café, located on the first floor, is named for Louis Oakes.

Louis Oakes (1871-1964) was born in Sangerville, ME. He attended the University of Maine and played right tackle on one of Maine's earliest football teams. His brother was Sir Harry Oakes, whose mining operation in Canada uncovered a \$250 million gold mine at Kirkland. Louis Oakes financed the exploration and shared in the wealth from the mine. A longtime resident

of Greenville, Oakes was well known as a forester and philanthropist. He was a strong supporter of educational opportunities for students in Maine. He received a Doctor of Letters from the UMaine trustees in 1953.

Reserve Reading Room

The area of the library now used as the Reserve Reading Room (first floor) was given in memory of Rev. and Mrs. John Hauck, Samuel H.T. Hayes, Adelaide and Caroline Wing.

Ernestine and Rev. John Hauck were the parents of Arthur Andrew Hauck. Arthur Hauck was appointed president of the University of Maine in 1934 and served until his retirement in 1958. Hauck Auditorium is named for him. Hauck's portrait hangs in the presidents' portrait gallery

on the second floor of Fogler Library.

Samuel Henry Tewksbury Hayes (1867-1927) was born in Oxford, ME. He graduated from UMaine in 1890 with a B.S. in Agriculture. He was a member of the Beta Theta Pi fraternity. Hayes received his M.S. from Cornell in 1895.

Circulation Desk

The Circulation Desk on the first floor was created through the generous contributions of Louise Campbell Rose.

The *Louise Campbell Rose* fund was established at the University of Maine in 1998 by a bequest from Louise Campbell Rose in memory of her mother, Clara Green Campbell, an alumna of the University of Maine.

Second Floor Foyer

The large paneled foyer at the top of the main staircase is dedicated to the memory of Ralph Kneeland Jones.

Ralph Kneeland Jones Jr. (1866 -1917) was born in Bangor. He entered Maine State College in the fall of 1883, graduating in the class of 1886, with a B.S. in Chemistry. He was a student assistant in the library for two years, one of the editors of the year book for two years, and a

founder and editor of the Campus newspaper. In 1897 he was elected librarian at University of Maine and attended the library school at Amherst College. From 1898 to 1916 he was Corresponding Secretary of the Alumni Association.

Presidents Room

Located on the second floor, the Presidents Room houses the portraits of the University presidents. Given in memory of Joseph Bass, it is a popular study area and serves as the location for current issues of science periodicals.

Joseph Parker Bass (1835-1919) was born and educated in Randolph VT. He worked as a clerk in a dry goods store in Lowell, MA and eventually started his own business. He transferred his business interests to Maine in 1863. He was the owner and publisher of the Bangor Daily

Commercial newspaper. He served in the state legislature and was elected mayor of Bangor. Bass was a leader in the organization of the Bangor and Aroostook Railroad and was one of the founders of the Eastern Maine State Fair. He gave Bangor the park now known as Bass Park. During his time in the legislature, he was an advocate for allowing the University of Maine to confer the bachelor of arts degree. The Bass room and furnishings were given by Mr. and Mrs. Harold M. Pierce ('19) of Hampden. Bass was Mrs. Pierce's uncle.

University Club

One of the founding members of the Fogler Library Friends, Thomas Lynch, originally donated funds for the Lynch Music Room. A music aficionado, he wanted to offer UM students a first class music listening facility. Lynch later helped fund the conversion of the room to the University Club in 2000.

Thomas Lynch (d 2004), former vice president for Advanced Technology, Gould, Inc., graduated from the University of Maine in 1938 with a Bachelor of Science degree in electrical engineering.

Among other accomplishments, Lynch pioneered work in underwater acoustic devices. As an inventor, he held 14 patents and made many contributions to the advancement of underwater sound technology. Lynch was a member of the University of Maine Development Council, the Engineering and Science College Technical Advisory Board, and the General Alumni Association President's Club.

Dean's Office

The Dean's office, adjacent to the Lynch University Club on the second floor, is named for James Elms.

James W. Elms (1885-1928) was born in Dover, ME and graduated from the University of Maine in 1906. He worked for the DuPont company for over 20 years, first as a chemist and then as a manager at the government war plant built by DuPont for the U.S. Government. At the time it was built, this plant was the largest self contained powder plant in the world. At the time of his

death, Elms was plant manager of the Paint, Lacquer and Chemicals Department at DuPont's Parlin, NJ facility. He died in Paris during a business trip involving Du Pont's interests in Europe.

Media Resource Center/ Learning Materials Center

The Media Resource Center and the Learning Materials Center are located in the Stodder Room on the second floor.

Anne Stodder (d 1942) of Bangor was a quiet philanthropist, often giving her gifts anonymously. She was a strong supporter of the University of Maine. In addition to the room in the Library which bears her name, she was a generous donor to the University. Her \$250,000 bequest to the University made her UMaine's second largest donor.
