Below is a guideline for GMDs

General Material Designators (GMDs)

As recommended in the PCC Guidelines on Hybrid Bibliographic Records, OCLC will retain the 245 h GMD for a period of 3 years in WorldCat records where it currently exists. Catalogers editing **existing non-RDA records are asked to leave formerly valid GMDs present in records through 31 March 2016.** However, do remove the GMD when re-cataloging (and re-coding) a record as RDA.

Do not follow cm with a period in the 300 field unless there is a 490/830

Since there is no series, no period f
